

## HYBRID PROFILE

# VP399

### 89 CRM

Recommended  
established population  
(plants/ha)

**GRAIN** 85-105K  
**SILAGE** 95-115K

Seeding rates may need to be  
increased to compensate for  
reduced establishment field losses

Delivers the next level of silage  
yield performance. VP399 is a tall  
bulky plant with strong roots, stalks,  
drought tolerance and staygreen.  
Good staygreen provides harvest  
flexibility while producing silage  
with excellent digestibility.

**Days from planting to  
silage harvest**
