

HYBRID PROFILE

VP321

82 CRM

Recommended established population (plants/ha)

GRAIN 90-110K
SILAGE 100-115K

Seeding rates may need to be increased to compensate for reduced establishment field losses

High yielding dual-purpose hybrid with great ear flex, superior drought tolerance and Northern Leaf Blight resistance for late season staygreen. Has low ear placement and dependable standability. Widely adapted for all growing regions.

Days from planting to silage harvest

AGRONOMY TRAITS

Drought Tolerance	Very Good
Stalk Strength	Good
Root Strength	Average
Staygreen	Very Good
Early Growth	Good
Grain Drydown	Good

DISEASE TRAITS

Northern Leaf Blight	Very Good
Rust	Good
Head Smut	Very Good
Fusarium Ear Rot	Data Pending
Diplodia Ear Rot	Data Pending
Gibberella Ear Rot	Good
Stalk Rot	Data Pending

CHARACTERISTICS

Plant Height	Tall
Ear Height	Average
Flex	Very Good
Husk Cover	Medium
Test Weight	Very Good
Grain Appearance	Very Good
Flowering for Maturity	Average
Black Layer for Maturity	Average
